

# Khobar Towers - Tragedy and Response

For some Americans, the catastrophic events of September 11, 2001 may have overshadowed the Khobar Towers bombing of June 25, 1996. Yet as horrific as the attacks on the Pentagon and World Trade Center were, the bombing in Dhahran—terrible in its own right—should still command our attention. There is no distinguishing of the importance among these, or any other terrorist events, to those who lost their loved ones in them. That the Khobar Towers tragedy was followed by ones even larger in scale does not diminish its importance: it furthers it. The Bleeding Kansas of the 1850s prefigured a far bloodier Civil War in the 1860s, and the blasted facade of Building I 3 I anticipated the yet more deadly terrorism of the twenty-first century.
