

# Architecture of Regionalism in the Age of Globalization: Peaks and Valleys in the Flat World (Paperback) - Common

The definitive introductory book on the theory and history of regionalist architecture in the context of globalization, this text addresses issues of identity, community, and sustainability along with a selection of the most outstanding examples of design from all over the world. Alex Tzonis and Liane Lefaivre give a readable, vivid, scholarly account of this major conflict as it relates to the de...
